

Statement by the Press Secretary on the Presidential Advisory Commission on Election Integrity

Issued on: January 3, 2018

Despite substantial evidence of voter fraud, many states have refused to provide the Presidential Advisory Commission on Election Integrity with basic information relevant to its inquiry. Rather than engage in endless legal battles at taxpayer expense, today President Donald J. Trump signed an executive order to dissolve the Commission, and he has asked the Department of Homeland Security to review its initial findings and determine next courses of action.
