

## #HATJ: Unity & Awareness Ends This... and BEGINS All over the Next 24-36 hours

This conversation [was recorded on August 20, 2017](#), starting at 6:29 PM PDT and over the course of a couple hours we have the conversation here. (maximum call time per call is limited at the hotel )

We decided the two Summary questions I asked on our very last call would be helpful to put at the very beginning of the audio conversation. Especially for those who are just getting fully up to speed with the flow of DOings that have been complete for the last 4.5 years.

Pull out all the stops! Do as YOU imagine to DO and then Imagine More, and ride those rockets of desire right through the next 24-36 hours.

Enjoy the ride.

I Love all of you!

BZ

HATJ: Let's keep your call to your questions, then.

BZ: I'll put them in the big question time. If you can just give a very brief overview of what you just relayed in the first two calls then we'll see which may come first.

Ahm, as it relates to the people who are being and doing in unity, the actual solar eclipse energies coming right this moment, and this say, 36 - 40 hours culmination of just breaking loose, that would be very helpful.

HATJ: OK, don't go any further, let's do that so I can remember exactly, basically everyone is working hard in their part for what happens over the next 24 to 36 hours. And it will just flow more than that we're talking that tsunami that's finally hitting.

BZ: Yes.

HATJ: Very tangibly, OK? Physically, it's undeniable, it's factualized, OK? The first two calls that you and I did, they took summary, I went over the fact as at least through the prison systems which are really a nexus like an energetic ... **IT'S A LEYLINE .. MY GOD THE LEYLINES** ahh - in a way that we honestly never - I've never even seen before - and it goes all over the place - and that's throughout the entire world. The way they set these up, were they set them up, etc., etc.

So, all these people who have been working on the inside, for this moment of changing, like, making it for that the actual result, which would be the big picture that we've all been working towards..

BZ: Yes.

HATJ: - is the only result that exists now. And I'm talking about I've met people in here that are... have been working on this for ... you know .. 5 - 6 years, even longer, even shorter - aehm - a lot came in over the last year and a half, two years ... a lot ... saying OK, this is it, and they knew about the filings, they knew about - you know - everything about the TDA's, the Treasury Direct Deposit Accounts - they knew about all that stuff...

BZ: Just to go back to.. so it's clear .. so the leyelines, the whole infrastructure, the whole... pathways, are normally, uhm, planet earth - but they reached off planet to other planets, is that correct?

HATJ: Yeah. Universal, they are absolutely universal. What is happening is the dissolution of the entire universal prison system that would throughout every single branch of the universal trust.

BZ: OK. And connect that in a ... because ... some people get this ... can act that every branch of the universal trust, that also is correlating to the TDA although maybe called something different those trusts as well, Correct?

HATJ: Yeah, they were - you know - everyone has currency, which is why you have the universal commercial conversion system, right? Because everyone has their own tools and devices of commerce .. to have energy flow, right? All this is literally being dissolved right now. There is a difference between knowing it and a whole other thing to experience it! And right now we have everyone implementing the experience.

BZ: Right.

HATJ: And it takes time. It is over. And that is what the first call you and I went over about?

BZ: Right.

HATJ: I mean how many have we done so far, two or three so far? This is our fourth one.

BZ: Tonight? HaHaHa This is our third one tonight.

HATJ: I don't even know what day it is... Tell Brian and his ding dong of a Mayan Calendar no days or no time, I've been living it for how long now? So since the 25th at least. I owe him bigtime!

BZ: Ha Ha Ha

HATJ: So, I'm a ... that's what these calls have been about is kind of going more in depth into that. This is so big, this is so huge.. We know that for that sit down, last week, or excuse me, yesterday, I spoke with two of the girls that are in here right now, who are, let's just say that their similar to me and that they've been working from different angles and from all around the world, then should as well... uhm... and ... the kind of general feel is that they are pretty much going to ... maybe do that, repeat that process in other states, they are getting very very nervous, the light that's coming through - I filled it out.

Oh!

OK, she just told me I've got to fix this, OK, so ...

BZ: You can call me back..

HATJ: Yes, let me call you back, but this is... that's what is happening, BZ. This is huge.

BZ: You know I get it.. I get it, but I can hear that everybody else is going to be asking the questions, so if you can, call me back. And we'll do this last piece, OK.

HATJ: I'll call you back.

BZ: Love you, bye.

---

BZ: So, was there anything else you wanted to add, I can splice the two pieces together, add on the overview of that last question?

HATJ: No, really, well yes there is one thing, because that was the question amongst the especially the ones that have been sort of in solitary confinement the last five to six years.

BZ: Um Hmmm

HATJ: Who didn't know about .. they were surprised that all, like everyone on the planet got secured, they knew that, they thought it would just be humanity and that there would be a sort of a weeding out.

BZ: Right

HATJ: Right, what did they call that? the, anyways, the chaff, getting the chaff from the wheat, kind of a wheat from the chaff

BZ: Or select with love?

HATJ: Yes, exactly. And they were just very very surprised that that was the choice that was made with everyone get to start new, everyone wins, and they were actually super excited about that. The same thing went, the first question was ... they already knew that the treasury direct deposit accounts and all the international equivalent, so they get that that was all frozen so nobody could use them, except for the respective owners. Their question was what's gonna happen with the banks, are they gonna be shut down ... they start laughing, and I was like, what was the solar eclipse tomorrow, right? One thing I've been telling, the families, the federal reserve, everyone who is who is listening is that the way this works, was they got to experience, everyone going in and accessing, unfettered access, right? - until they manually went in to fetter the access but in the facilitation. And, so that they could feel how that felt, it's really a false bravado, right? Because now, everything goes self-powered - Self-powered, self-correcting, it basically get blocked out of the access, and that because all the source code - it was all changed to source code - back in December 10th 2013. Now, they're going to experience that. So, basically, they're experiencing first of all, ALL THAT IS ... and the fact that they never really had control of what they thought they had control of. And from what I understand, Feds, I mean it was foreseen that this would happen, but the Feds try to come in and have IT experts try to change all the code.

BZ: Yes, we actually have someone who is an IT expert, hired with the government contract, come and comment on the I-UV, supposed to, give us, tell us what was going on from the inside.

HATJ: And it is the same thing communication companies have been working on. I know Tas Barrett has been working on that stuff too and they just don't have control over the systems that they thought they did, right? And there's a big reason why, it's because all the people on the planet paid for them.

BZ: Right.

HATJ: OK? So, source code knows that, and the other thing is all the energetic signatures - that everyone has unique energetic signature, that's the only thing that's online. It doesn't even matter they forge your stuff if it's already known that's it's not you that signed it because it's all energetic signatures at this point, everything. There's not an end going on.

BZ: Right.

HATJ: OK, everything was in *ends* before, now it's just a *Hell No, not this time* - and now only the All comes through, which means, Yes - all is permitted that all that flows, in the flow. That's what, it's a harmonisation of every single frequency that was cut out and put in a vacuum and compartmentalised, is now harmonized in the whole and complete, and that spectrum is just love, period. And it is now measurable and measurable only basically through the actual embodiment being advanced technology that we know of is the human body, consciousness, OK?

BZ: Yes ... and just to clarify for everyone, this is not just the TDA's, this is all of all, what you're talking about is the language is different, but well, you know that - I know that, but so everybody can understand it ... we're, you're talking .. every time you talk about the prison or you talk about the TDA's, any of those specific things, you can use the same information that you are presenting tonight for any subject, any system, any anything in all of it on planet and off planet - is all coming down with the original - and the way that is the amazing stuff that is supposed to be for every single being, none left out.

HATJ: Exactly.

BZ: That's all happening tomorrow, OK.

HATJ: It's always All been happening, BZ, but it's all coming into consciousness of every single one - that's the difference, and you can make it as fascinating it used to be, where it goes as fast as you go - it was allowed everyone to go at their own pace and right now everyone's heart is saying "Done - Enough, No More!", to the point where now everyone just wherever they are, it all just comes right into reality and experience - and that's all there is. That's what tomorrow is about, you know? In order to get a different result, you got to change the formula. Well, now we're not only changing the formula, but the results, and the result is *See All*. That's what

everyone has chosen and that's what is being implemented, and that's all that is going to be experienced now.

BZ: Great, OK. So to finish up with one last big question ... ahm ... given that everybody will do what they feel moved to do, can you lay out a sense of ... for the next 36 hours flowing with all this magic, and this abundance and love that is flowing. What is a way for them to highlight that, to amplify that?

HATJ: BZ, you know my answer to that...

BZ: I know, I know, I know but I'm just relaying the questions that are being asked in my ear, so ... (laughter) ... They tried Heather, they tried

HATJ: I know. Look, I'm never going to limit any on this ... I know ... this is with all my entire being, OK? Be, Do as you feel to do, be as fantastical as you can in your imagination, I am - I am dreaming bigger than big... beyond anything ever experienced in imagination, and I just embrace you as you do so as well, if it ... no matter how you feel to do, I embrace you and I love you for all that you're doing, OK? So Do and Be as you feel to do, and I'm just amplifying ... that really is truly my biggest thing ... I do as I feel to do and be as I feel to be ... and I don't know if I even can tell you what's it's going to look like the next 24 hours, I mean I'm imagining big on that but you know all stops are pulled out so ... I mean ... pretty much everyone thinks I'm crazy for even doing what I've been doing the last month, right? But I'm really excited because now I'm pulling out all my stops, so I don't know what that's going to look like, I just know I'm going to know how to be and how to do as each moment comes along, and that's what I would suggest to everyone else. I'm amplifying that everyone feels the courage and the confidence to be and do as they feel to do and like I said to move beyond limits of imagination.

BZ: Yeah, right, so reach for beyond the stars and play where you play and whatever you imagine it's great and it's not too far out by any stretch of the imagination.

HATJ: The answer is yes already.

BZ: All right, good!

HATJ: Oh my Gosh, I'm so excited for these moments, I don't know that it's gonna look like! But, oh my gosh!

BZ: And everybody polished up their dancing shoes and they are excited to just be and do right on to the hugging dance.

HATJ: Ah, I am too honey, I am too. So perfect, oh my gosh, thank you so much. Thank you everyone - I can't wait to dance and kiss everyone and just, God have some drinks and cigarettes obviously - Yes I smoke in every stream of consciousness, so everyone knows.

BZ: If you're good, all right - so I'll get this out and you will feel the joyful expansion of without limits of being and doing as it hits people's ears and hearts and minds.

HATJ: Thank you, honey, and all my love to everyone and as all flows, I'll see you in the flow.

BZ: All right, love ya, bye, bye.

HATJ: Love you too, bye.

---

HATJ: So, I'm just gonna focus on the big stuff, the big picture stuff, to make sure that we keep that forward momentum - details are really just specific for how everyone wants to have fun, OK? The big picture stuff, I will give you the stuff from the inside that's happening, because before this moment there's still an inside and an outside.

BZ: OK.

HATJ: And that's in so many areas and fields and etc. and that's what's being all dissolved and near instantly as of tomorrow.

BZ: Yes.

HATJ: They've been prats for years, I'll just give you just the story - nothing is at it appears, right? Like that joke that most people's perfect vacations just take cruises like yeah, but they don't give you free clothes, so this is is a different piece in line, I personally in this system as well as Randy and others. I've met so many, especially seeing as they're giving me a tour of the Federal Bureau of Prisons and the contact trials, right? Um, at almost every facility I had a, especially Oklahoma which is probably the largest hub transfer, where they have their own airport - amazing! - just to

watch all this stuff go down and .... basically you have ... I already knew it was Universal before I even came in, that the doing you and I had talked like 4 months?

BZ: Right.

HATJ: You know, it was before we started about 5 months ago, you - BZ - and I we talked... didn't know the details then, in fact, I couldn't even spit them out. Now we know a lot of details but there's so many details that are going on that nobody really knows about them, but everyone can feel them, that big picture?. So, there is a ... the prison systems weren't just U.S. , they weren't just global, they were Universal. There is a Universal dissolution - a dissolving of the entire prison systems in existence. There are so many on the inside that are actually working this in the from Alphabet that would be familiar to everyone that's listening to this call, we're talking some serious agents from not just the Alphabet but we're also talking law enforcement agencies, you know, U.S. Marshals and you do have FBI, and I want to make this clear: the families and those that were the former overseers of this branch, this planetary branch of the universal trust, I really want people to understand they just didn't know how to unravel it and that was expressed over numerous months over the last two and a half years.

BZ: Yes.

HATJ: And there were already people in here, I've met people in here that have been here for four and a half years. Talk about dedication and commitment, from all over and every single facility I've been in and usually when I move to a new facility, others arrive just in time and then we had our meetings and then they would be moved out, OK?

BZ: Right.

HATJ: And they were so great, grateful to hear that everything is closing up because they've been preparing for this for a long time. They're incredible beings with fortitude and heart that are just amazing. I do have on another call, we'll go over some of the things that they really wanted to impress on everyone, so everyone can get rid of fear like everyone right now has a different experience, right? Especially those that have been in here for quite some time and mind you, there's a huge effort on the inside to dissolve things but just as you've had from the outside to dissolve things.

BZ: Right.

HATJ: OK? And that why we're all doing this together and that was the greatest message that each and everyone that I've come together within the inside wanted everyone to know. There's never been a question or a doubt of their fortitude or their stamina or that this is what they choose because they want a better world, they want a better experience for everyone. And they each have their own personal reasons and personal motivations and what I mean by that, is it could be their family, it could be their children, it could be their... you know ... their loved ones ... their spouse ... whatever it might be, was their personal motivation they said, but then it just snowballed into something so much more. Once they got in, and they didn't even know it would take this long, so a lot of them were shocked that I was in here to begin with. But we recognized each other very quickly, we get the guys that we need to get, we swap together we need to swap and then they move on to another facility to be able to transmit and receive, OK?

BZ: Yes.

HATJ: These are people that know the universal dissolution is going on, so data comes to them very, very quickly... it's the details usually, you know, when you hear details, it is... ohh, it just goes so far, who knows the details, to feel the joy and the exuberance and people and empowering themselves, that's been the biggest joy for the ones that I've met with, where they're like *Oh My God, they're doing it - they're finally doing it.*

BZ: Yes.

HATJ: Every single one of them knew that the hardest part was going to bring people around the world together, together to make the change. So, everyone has been so excited that everyone is coming together on the outside because that's what helped all these one's on the inside, so there is no more inside/outside. And I'm telling you, there's going to be no problem transitioning everyone out of these systems - not at all.

BZ: In the blink of an eye.

HATJ: You should see the preparation that's been going on is phenomenal. So that is in general the topic, and if you have any other questions and we're able to communicate, you know. Right now, I understand that Florida as of yesterday got walked down until further notice ... that's been because there is limited contact for these certain ones like the first time some of them were in solitary for instance for two years, and in some of the darkest, deepest prisons and then all of a sudden out of nowhere they get transferred at just the right moment for something insane and then they get returned back. I think there's a need somewhere, then they get returned back without any, without ever arriving to their designated destination, so, everyone knows what's going on, everyone's brilliant and beautiful, and I'm not just talking inmates, I'm talking also officers, marshals. I have personally have had a fun experience, amazing experience and it's

mutually enlightening, mutually joyful, racially expansive - it's incredible, incredible! And I know it's gonna sound maybe weird for those that just don't have a reference point, but I've had a fantastic fucking time.

BZ: (laughter) Doesn't sound weird to me, I got it!

HATJ: And the people I'm meeting are amazing like I said, from officers to... you know, agents, to inmates - in general it's an amazing experience and I'm so proud and honored to have done this ascend. Like I said, they were a little shocked that I was in here in the first place, but then they knew at that point it was end time and beginning time.

BZ: Yes.

HATJ: They've been working so hard for in it, for a long time and there's a lot of data coming in on the whole Universal dissolution and everything is, basically what's going on here, is what's going on over there and going on over there because there is no more there, and here there's just here.

BZ: Right.

HATJ: And that's what tomorrow and the solar eclipse and all that, they're running, they're going off of old scripts, they hope that everyone's original, they ... you know, those former overseers and the families, they hope that everyone's original, they hope that everyone wins including them, they have you ... you know... they just hope all that, that's in their heart, that's what they hope for. And yet, you know, it's hard to have... release, and habits are hard to break. So, that's where we are right now, is, tomorrow is a huge day, tomorrow and the next day are huge days, and they just don't know what to expect, and all I can tell everyone is, it's beautiful, and I want to thank everyone in advance because this has been amazing ... and you know ... making that ... it's one thing to know and it's a whole other thing to experience and we're closing up something - at least for me that started in '72 - and for the science, the scientists, and especially like CERN, because that got kicked up in '71, '72, - let's just say, at least for me personally that's when I came in and so something for me personally, is closing out here, which it was probably the longest hand that has been played, ah for me. So, thank everyone.

BZ: And that was CERN?

HATJ: Yeah, I just kicked it up in '71 and it was august the... after it was in last few days of July in the first weeks of august that they made some notice, the scientists and secret societies and

everyone else, but they just didn't know identities or identification, what it was. So, I'm very excited for this moment, I remember the last solar eclipse and then throw a little girl watching that solar eclipse, I'm very excited for this moment. Everyone feels that energetic signature and feels they're coming in full blast, so use them, use them consciously. Do as you feel to do, and I want to say *thank you*, thank you to everyone.

BZ: Everybody's fired up and they are doing the "do the feel to do" dance, so they're doing away!

HATJ: Well, I gotta tell you, everyone in here that I've had meetings with and met with and gone through things with, they are just overjoyed at the awareness and the unity that has occurred, because the unity part was always what nobody could figure out, apparently. And going in and having everything ready, that was the easy part. Having agents in the right place in the right moment, having transmitters, receivers, exactly now in equal formula, but it was always the unity part, and yes, the unity part they're now seeing, just flows by everyone being and doing as they feel to do, in trusting yourself.

THIS CALL WILL BE TERMINATED IN 2 MINUTES

BZ: Right, and even in the unity part you'll have sometimes someone part of their doing, is to question or say, "well I'm not going to forgive or I'm not going to do this or I don't want to be together" - and in them expressing that, it's a way for them to integrate it and it's also a way for others who come into contact with it, to make a choice point for themselves, uh now they actually want to go towards unity. So, it's beautiful, it's all happening as the correct dance choreographed.

HATJ: You know, whenever anyone would put something out, you know I picked silence for a few years after I come out publicly, but I think silent, because whenever someone does write something, even though inside I feel like *Hell Fucking No, No way!* You know? I just sat there going "how beautiful"! I'm so grateful to that one for writing that.

THIS CALL WILL BE TERMINATED IN ONE MINUTE

BZ: Are you gonna call me back after this?

HATJ: Yeah, I am. I was so grateful for that one for writing it out, because then I could express my own term, how I felt.

BZ: Yes.

HATJ: So they over lighted it beautifully, so everyone is a catalyst, here they're self-catalyzing and the catalyst.

BZ: Absolutely.

HATJ: So everyone is doing this together.

BZ: Absolutely.

HATJ: I love you guys very much, I'll call you back here and we can get on because I have a few messages especially for any of those people ... you know ... are in jail or in the systems for trying to get DNA or blood samples or shoot them with who knows what kind of medicines. There was a lot of agents that wanted people to have this info and I'll call you back and we'll go over that.

BZ: OK.... you're live...

---

HATJ: OK, so with some of the agents and stuff that I met that are on the inside, they wanted to make sure because there's a lot of fear that is fear tactics that are used when people come in, especially if they haven't been in here before, and most inmates don't talk to other inmates, you know, especially if they don't know each other, but there are those that are in here, that truly aren't what they appear to be and they go in to try to make everyone feel comfortable as possible. They also are in there to disuse ... so to be the opposite effect of what CIA used to do like down in like Poland or Argentina, and a lot in South America recently, where they'll just insert people into the fields like Arab Spring - same thing. They'll put people in to try to cause riots ...

BZ: Right.

HATJ: And they do the opposite here inside where they try to always calm things down, neutralize situations, that they're amazing beings, amazing beings, and so they want, we went through a lot of different data they have been collecting - talk about judicial corruption, investigation of literally all over America if not worldwide, because they have other teams that they work with in

Europe, so there's a lot, I met with, the one.... well lets just say there's been different ones from different countries that I have been meeting with. And they report that the massive data that's been pulled - the corruption is all the way through - so it's a given they all know, we all know that it's coming down. That's an issue. So what they wanted to do is for those that we're asking for the data, especially for instances where they try to take DNA, they try to take fingerprints, or they try to .... Each of us has our own way of dealing with it, and it really truly is just how comfortable people are, as well as shooting drugs in. So, I'm gonna give you few, a couple of the examples. Everyone is pretty aware of how I deal with things, you know, I already ... and this has to deal with the filings that I did for everyone, securing everyone four and a half years ago. It was already checkmate four and a half years ago in my eyes, in my heart. So I have no problem going in they want, I get them the DNA, I give them what they want, so that they can actually see the difference - and what I mean by that, is all the DNA and stuff that they've taken from every single being after their born, etc etc, they monitor it, they try to manipulate it without even having to meet with you, face to face. If something doesn't work, then have to go in and do social interaction. If that doesn't work, then they have to get really visible, okay? So what I mean by this is, I prefer to give them access to the data that I have, then they go in and try to measure it and it never... they get blown away, so it helps them to be able to shift their... shift their thinking, and that's just my method and my tactic. Right, there's nothing they can do to hurt me, all it does is give them education, period. And help shift them. The others gave me all of their different experiences which is so beautiful. They were like, OK, look, we just always say, I don't give you authority over my body. Which is, you know, that's a typical phrase, but when you Be it and you live it, they can't touch you. That's the difference, and a lot of people are aware in here as, funny enough, the treasury direct deposit accounts and what was going on, and that's general population, here inside. They also know about, you know, about the sovereign movement, constitutionalists, and they all agree, same thing as what I always keep about, is for sovereign movement you have to always have someone underneath you, in order for you to be a sovereign. Uh, constitutionalist, that, nobody can ever give me a definition of it, but with a constitution it's a contract and nobody is a signatory to it or an heir of the signatories to it. If you are, then OK then, but now you're seriously screwed because you are seriously in debt with everything that's going on. So, as we went through, they were telling me, yeah, their personal experiences, so in this one instance this woman whose actually from a whole other country, she manages like I don't give you authority, I don't give you authority, I don't give you authority, they threatened, they actually would make movements and mannerisms as if they were going to physically harm her, and she would always just say, look, I knew my body can handle anything, she goes, that's my belief system, that's my experience, she goes, if they try to shoot me up with whatever and I don't know what it is, I just know my body can transmute it, not a problem, she knows that the body's one of the most advanced technologies in existence. So, and that's with consciousness, right? And so she was like, OK, I'm just going to continue - they do something to me, no problem, I can handle it. They try to beat me, I can handle it. And every time she said, I do not give authority, I do not give you authority over my body, over my being, and not once did they ever harm her or touch her. In fact, the law enforcement got upset with the nurses, because the nurses and the doctors refused to touch her. No, she says No, that's it, end of story. We're not touching her. And they got in fights with the law enforcement, would be, because law enforcement can't do anything and they know it so they try to trick, and I don't have the ids of what law enforcement it was, but from what she was saying, it was in the facility itself, so you're talking either ... and it was in Philadelphia, so it was more of a regional jail cell so more of like a

corrections officer kind of a thing, so they... she just wanted to impress upon everyone, when you know who you are and you stand in that, nobody can harm you or touch you unless you design that creation to happen.

BZ: Right.

HATJ: And this is two years now, that she's been going through this. And you know, even those overseas who were telling me that they had gotten thrown into mental institutions over the last four years, she said the same thing, she goes, even the mental institutions they threaten, they ... you know, but none of them when you said "I do not give authority", they do not touch you at all, at all. And I said, OK, well what in the instances when they have had inmates that come in and they shot them up just with drugs, she goes, because, when they... what happens is they presume, yes, we get that, but.. I said what?, and she goes, you just have to stand in your being, because whether you are at the grocery store or you are in a jail, it doesn't matter, you've got to stand in your being.

BZ: Right.

HATJ: Always do what you feel to do, but that's the confidence level and she goes, you know, it took a lot of us came in here knowing that the job that we need to get done and then overwhelmed about the job that had to get done and nobody knew it would take this long, nobody, and you know, we're just, we are where we are right now, and I can tell you, everyone is super elated that we are where we are right now. So, when I went over everything with them, you know cause, a lot of them they knew about the filings, a few of them who were in solitary confinement did not know anything about the filings, because they've been in here for what, 5 - 6 years, basically been in solitary confinement the whole time and then just out of the blue they said that they got moved - now they know why - because we had our meeting, but then they got returned.

BZ: Right.

HATJ: So the big part was they were so grateful, that everyone is coming together with unity and awareness, it is so important because it means that all of this ends and these agents who have been doing all of this to keep things neutralized, etc, they transmit, the ones that are in solitary, literally, they are put in solitary because they are transmitting and receiving so much, and they were talking to too many inmates, at the time they got thrown into solitary, and like I said, some have been in there for a very long time. And they just continue to transmit, they can't stop us. They're super excited for the solar eclipse. I just would like for everyone to really focus on the big picture, because we also have all streams of consciousness, are now just one stream of consciousness, which means you're going to see aspects come in that have always been talked

about, petitioned for the information for, but never seen. And now, everyone is coming out of the shadows and they're going to be seen. So I would like to impress upon everyone, keep an open mind, keep an open heart and really feel, because it takes a lot of courage to come out from the shadows, and I say that as one that is doing that over the last few months, so people can actually just see the ALL of me.

BZ: Right.

HATJ: It's not easy, it's a little of nerve-wrecking, and yet at the same time the ones are going to be coming out, are just hoping to always be accepted in love for who they are, all they are at every given moment, even if that's less than what people expect them to be and yet at the same time by just being unconditionally embraced, they end up bringing the all of them through, and I can tell you it's better than anyone's ever imagined. And that goes for all of you. Everyone's super excited, they never at some point... people are starting to lose hope, on the inside here, that anyone would come together and be unified, so they're super proud of everyone and they are ecstatic and that was repeated over and over, over and over again, so the gratitude, they're super excited for parties and celebrations so everyone can come together and everyone can say thank you. But they wanted me to impress upon everyone their gratitude and their joy. You know, they've given up everything to make sure that everyone had everything, just as everyone right now is letting go a lot of comfort, right? A lot of things that we held onto for so long, because we all know. We can all feel and now we're going to experience that everything has changed.

BZ: Right. And I want to go back, because this is very important to go back to what you mentioned a moment ago of people coming out of the shadows and you alluded to yourself coming out of the shadows, and I think while we're having this conversation, my perspective is that we're all still the same beings that we all resonated to regardless of what is becoming unshadowed or not and we are...

HATJ: Not shadowing or bad things, BZ. What I'm just saying is...

BZ: You know, I know that... but it doesn't matter.

HATJ: ... that we have not shown all of ourselves, right?

BZ: I got that, but it's... so, when people see different things, whatever they're seeing, whenever they unfold - if their heart is open and they're in an expansive state, that's just OK, great, that's more info and I'm still focussing where I'm focussing.

HATJ: You know, I think what it is, is, it feels good to be ALL that you are...

BZ: Yes.

HATJ: without any limits whatsoever, so you end up shining even more. I know personally and I like to just speak from my own personal experience, I don't like to speak for others, cause I really enjoy hearing them tone, and their excitement, just as you guys have been talking with Randy, you've been talking amongst yourselves and everything else, and what look for me, is, how do you say, there's a lot of.. like throughout the years that I've worked, military intelligence, military period, Universal militaries, planetary, American, etc., have all tried to figure out where I'm from and who I'm serving, meaning, what agenda and etc, etc. , what powers do I have, ah, what tools, what teams, and you know, and here's my point: Everyone is so much more than what they thought they were and in order to hopefully inspire everyone to, you know - make visible all that they are - and self-embrace, because you can't... no one can embrace you because you don't make yourself visible unless you can embrace yourself, okay?

BZ: Right, right.

HATJ: So I just wanted to put out there, you know, as far as the reference to me, I'm just having a good time making myself visible, doing all I feel to do, and trusting and feeling, you know, all of this validation that everyone is doing as they feel to do, and I already knew that everyone would pull this out, so I'm having a good time making myself visible and answering those questions. And they express the answer is Yes to all of it and so much more. So, I love you guys and I just wanted to make sure we ...
