

## Randall Keith Beane's Closing Statement - 1/31/2018

I have heard a lot of testimonies and I have seen a lot of redundant evidence from the government proving the fact that I purchased CDs from USAA and I do not dispute that fact, I even admit it to be true. I have also heard from the government that Mrs. Tucci-Jarraf and myself had devised a "scheme" to commit fraud upon various financial institutions. I, however, beg to differ with that argument.

This case proves beyond a shadow of a doubt that these federal reserve accounts do indeed exist and that these accounts do belong to us but not as individuals as we were warned - the federal reserve website so proudly claims - but as "original depositories" as admitted by Mr. O'Mally. The verbiage cannot be disputed and the proof is in the fact that the government has not allowed these documents to be submitted as evidence or to be referenced by name. These documents cannot be disputed by any financial institution on this planet as we have seen proven in this case by the one institution who did receive these documents and closed their case admitting they were legitimate.

Many of the witnesses have testified to this jury that they have relied on word of mouth from other employees in their respective institutions that these federal reserve accounts do not exist and failed to produce documentation from the federal reserve to back those testimonies. I, however, relied on documentation to justify and verify my decision to lay claim on these accounts and that they are indeed very real. Documents that the federal reserve and the government have unrebuted. As a matter of fact they are so factually real that they are not even allowed as evidence to be disputed or disproven.

Should you choose to find me guilty of any of the 7 counts of the alleged indictment you have in essence found an innocent man guilty and allowed a morally bankrupt and corrupt government in collusion with a corrupt financial institution, which has been proven through the mortgage crises, the Libor scandal, the bank bailouts, and many more instances to be true - you will allow the real "bank robbers" to get away once again with financial murder. I have been accused of being a fraud in this case when in actuality felt it was my duty as an informed American and sincere living man to expose the real "bank robbers" in a huge undeniable scheme that has been in play for over 100 years. If you recall, there were no objections to any evidence or testimony submitted by the government on behalf of the alleged defendants. The purpose in doing so was to see exactly how low the government was willing to go in a continuous scheme to hide the truth from the people and perpetuate a system of slavery.

That has been the covert intention from the inception of the plan. It is time we the people stand up for what is right and demand full transparency and accountability of those who have enslaved us and by taking that stand we can begin to break down the illusion of dominance that has been in force for much too long. Your choice in allowing me my freedom will sweep across this planet in a tsunami of compassion and allow me to continue to prove that these accounts do indeed exist when the correct verbiage is used to prove it. Imagine a world where we can provide for one another as we desire to, imagine a world without poverty, or lack of any kind. Imagine a world of abundance, not for a few to control over others with but true abundance for

all. Regardless of any testimony heard these accounts are very real.

As President John F. Kennedy said before he was murdered by this same corrupt government in his effort to expose this financial scheme, "There is a great danger in the way facts can be spun or strung together to give credibility to what is otherwise a wild-eyed conspiracy theory. It is our responsibility to look at every thing with a skeptical eye, and also be aware that many will try to twist reality to serve their own agenda or reinforce their view." President Kennedy was speaking to us about the financial oligarchs in our country whose tyrannical rule and their weapons of mass destruction has come to an end. In a true David and Goliath story of old it's time to defeat the giant.

There is a book that was written about the federal reserve that exposes the deep corruption from its very inception titled 'Creature from Jekyll Island.' In this book we learn that the federal reserve was created in secrecy back in the year 1913 at a private meeting off the coast of Georgia in a place called Jekyll Island. We also learn that congress voted on the creation of the federal reserve during the Christmas holidays while most congressmen were home with their families. The federal reserve is no more a part of the federal government than is Federal Express. As is proven by the fact that the institution has never been audited, we've heard many claim to try but still with no success. The creation of this private banking system was done in secrecy to take over the currency system and control over the people. It was stated by one of the creators of this devious plan "that he who controls the money controls the laws" and I agree that that plan has indeed been played out to its full intent. It is time for us to wake up and see the reality of who we are and where we are. As the scripture says in Ephesians 6:12 "For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of darkness of this world, and against spiritual wickedness in high places." Please take a stand with me in exposing the evil that has undermined and camouflaged itself as the authority over all.

In an effort to keep me quiet about all of this over the past few years, I have been kidnapped by agents working under the guise of law on several occasions and each time they assault me and charge me with fictitious crimes and even detain me illegally. I have been warned that if I don't shut my mouth that I will eventually disappear and no one will ever find me. This case in my view is simply a grand scheme to put me away and make me disappear. You as a jury hold the power to stop this corruption and expose it for what it really is. Lets make this case transparent to the public for all to see the real criminals exposed and dealt with accordingly.

I have chosen not to call witnesses to the stand or even to submit vast amounts of evidence proving my innocence instead I have chosen to speak my truth from my heart, for all a man really has is his word. I would hope that as human beings we haven't completely lost this war that has been waged against us for far too long, and that you truly feel in your heart that the time is now for us as we the people to take a stand and make our voices heard. Because in the big picture they can shut up one, but they cannot shut up the one people when we make our voices heard together. I told you in the opening statement about the picture being portrayed in this courtroom and how that picture was at best a pixelated picture in which a lot of data is missing or incomplete and even manipulated. Please understand that without the documents

that proved the legitimacy of these accounts to Whitney Bank never being presented to USAA Bank and finally to the federal reserve bank that the data has most definitely been manipulated to hide the truth.

It is important to see that in the scheme to further hide the truth, that the real criminals chose to stop me with whatever means necessary which included kidnapping me in my effort to get to USAA Bank headquarters in San Antonio, Texas, to resolve this matter with all the proper documentation in person and to put to rest once and for all the fraud that has robbed every single soul on this planet for over 100 years. If there is anything you can learn from this trial to help you better understand the big picture more clearly, then wipe away all the evidence and the testimony and allow the light to reveal what is truly happening here. Paper money does not have value, digital numbers can be and very often are manipulated on screens to make us believe that they have value. But when it comes down to the end and the dust has settled, the only real value there is, are you and I. This is the truth that needs to be understood. The truth that has been hidden for generations upon generations - it is time to claim our value.
